

TMBP2-XC

Standard Model Single-Head Cylinder Type

The largest embroidery space in the single-head machine lineup.
Stable quality for a wide range of accessories
from small to large items.

Large embroidery area : 550×600mm
By adding the special frame
and table of the X-extension unit (option),
an even wider embroidery range
can be utilized (550×1200mm).

Applicable for large flags, store awnings, dresses.
It ensures a wider embroidery space
by attaching a special frame and table.

FEATURES

A wide variety optional frame lineup
for various items.

TMBP-XC is the standard model with basic features.
This enables to produce stable-quality embroidery on
everything from small item to large flags, tablecloths,
curtains or furniture.

USER-FRIENDLY DESIGN

12.1-inch touch panel

The large 12.1-inch operation
panel-one of the largest in the
industry-features convenient
icons and allows you to switch
the language used for operating
the machine.

New thread trimming
device eliminates picker

Eliminating the picker makes
exchanging bobbins easier. It
also provides more stable
trimming and a 40% improvement
over conventional machines in
shortening thread tails on the
reverse side of the fabric.

Design position
adjustment function

Even if the fabric pattern is
slanted in framing, it can be
corrected from the operation
panel, with no need for repeated
attempts to reframe.
